Marketing Technology Consultant | Solution Design & Customer Engagement

Noida, India | +91 8527074263 | kinshuk09@gmail.com

[linkedin.com/in/kinshuk-goel-654a2544/](https://www.linkedin.com/in/kinshuk-goel-654a2544/)

PROFESSIONAL SUMMARY

Marketing technology consultant with 11+ years of experience across marketing technology and investment banking, including 6+ years in campaign automation. Expertise in Adobe Campaign Classic, Adobe Journey Optimizer, Iterable and Braze, connecting customer data to segmentation and real-time multichannel engagement. Combine hands-on platform implementation and server administration with requirements analysis, solution design and stakeholder collaboration to support enterprise marketing platform evaluation and migration planning.

CORE SKILLS

Marketing platforms: Adobe Campaign Classic (ACC), Adobe Journey Optimizer (AJO), Iterable, Braze

Data integration & reporting: Braze Cloud Data Ingestion (CDI), Hightouch, Iterable Smart Ingest, Iterable Data Sync, Braze Currents, Microsoft Fabric, Databricks, Amazon S3

Campaign activation: Audience segmentation, journey orchestration, Braze Canvas, email, SMS, push notifications, mobile SDK integration, event tracking, real-time triggers

Engineering & infrastructure: JavaScript, SQL, Shell scripting, HTML/CSS, REST APIs, webhooks, AWS, Linux, on-premises ACC administration, troubleshooting, performance tuning

PROFESSIONAL EXPERIENCE

Lead Consultant - Marketing Technology

Wipro | Client: Lebara | December 2025 - Present

- Manage on-premises Adobe Campaign Classic servers, coordinating configuration, troubleshooting and performance tuning with infrastructure teams to support campaign operations.
- Design and implement Iterable journeys and Braze Canvases for platform evaluation, translating business use cases into audience selection, channel routing and campaign activation logic.
- Partner with business and data teams to define customer attributes, consent information and behavioral events required for campaign activation; map source data and configure syncs for segmentation.
- Configure data ingestion using Braze native Cloud Data Ingestion (CDI) and Hightouch-powered Iterable Smart Ingest, mapping Microsoft Fabric and Databricks source data to customer profiles.
- Build customer segments and orchestrate targeted email, SMS and push journeys in Iterable and Braze, including real-time activation based on incoming customer events.
- Collaborate with mobile application teams to integrate SDKs, enable push notifications and track engagement events, including opens and clicks.
- Configure Iterable Data Sync and Braze Currents exports to support downstream reporting; assess event coverage against business reporting requirements.
- Validate REST API and webhook integrations, including asynchronous SMS callbacks, retries and timeouts; present proof-of-concept (PoC) results, constraints and dependencies to architects and stakeholders.

PROFESSIONAL EXPERIENCE (CONTINUED)

Senior Consultant

Adobe | Noida, India | April 2020 - December 2025

- Led solution design and implementation of Adobe Campaign Classic for enterprise clients, translating marketing requirements into workflows, delivery configurations and integrations.
- Worked for more than one year on the Adobe Journey Optimizer pilot team, collaborating with clients and AJO engineering on customer journeys, integrations and product feedback.
- Integrated Adobe Campaign with CRM systems and data warehouses to make customer data available for campaign targeting and activation.
- Designed custom channel integrations, including WhatsApp, and managed mobile SDK integrations to support customer engagement use cases.
- Assisted clients with AWS VPN onboarding to establish secure connectivity for on-premises applications.
- Optimized Adobe Campaign instances on AWS for platform stability and performance; advised clients on campaign implementation, deliverability and troubleshooting best practices.

Publisher Engineer

Taboola | Gurgaon, India | May 2019 - April 2020

- Partnered with publishers to implement Taboola website integrations for advertising and content recommendations.
- Troubleshoot UI and recommendation issues affecting publisher implementations; provided technical feedback to engineering teams to support product improvements.

Consultant

Genpact Headstrong Capital Markets | Noida, India | July 2015 - May 2019

- Served as a technical consultant for Crédit Agricole CIB, supporting investment banking back-office applications.
- Acted as subject matter expert for a confirmation-matching application supporting trade settlements.
- Collaborated on-site with business users at the client's Paris headquarters to gather requirements and improve workflows.

CERTIFICATIONS

- Adobe Certified Master - Adobe Campaign Classic Architect
